Product Name :

Molecular Model Set – Benzene C₆H₆,
Unhybridized

Product Code :

SLE/Mo/23

Description :

Benzene C₆H₆, Unhybridized

Molecular models help the teacher convey a concrete representation of the molecular world.

Each kit comes in a durable storage case with compartments for segregation of parts.

Excellent quality models produced from precision engineered moulds and materials.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Contact Science Lab for your Educational School Science Lab Equipments. We are best school science lab equipments suppliers in india, school science lab instruments, school science lab instruments exporter, school science lab instruments manufacturer, school scientific equipments, science educational equipment.
