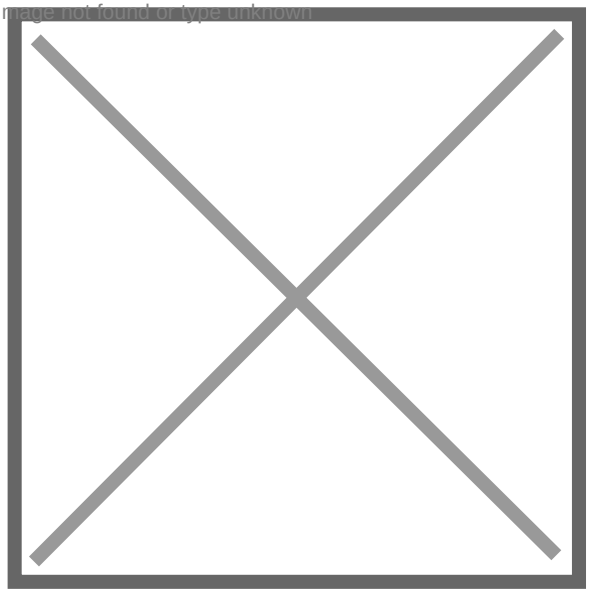
Product Name :

Laboratory Safety Chart

Product Code :

SCL-543/021

Image not found or type unknown



Description :

Laboratory Safety Chart (Product Code: SCL-543/021) is a classroom-sized 75 x 100 cm wall chart used to put vital laboratory safety information in front of students at a glance in school and college labs. Colour printed on poly art plastic sheet and fitted with a plastic roller, it has aweather-proof, washable and markable surface. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, alongside its school chemistry lab equipment in India.

Specifications

Parameter	Detail
Size	Classroom sized, 75 x 100 cm
Print	Coloured, on poly art plastic sheet
Mounting	Fitted with plastic roller
Surface	Weather proof, washable and markable
Purpose	Vital safety information at a glance
Product code	SCL-543/021
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Laboratory Safety Chart Used For?

Most teachers hang the chart beside the laboratory door or next to the first aid box, where students pass it on the way to their benches. It anchors the safety induction at the start of the year: the teacher walks the class through the chart, then refers back to it whenever a practical introduces a new hazard such as heating, handling acids or working with glassware. Keeping the same chart on the wall all year turns the rules into a routine rather than a one-time lecture.

The markable surface is useful for adding details specific to your own room, such as where the eye wash, fire blanket or lab first aid box is kept, and the notes can be wiped off when the layout changes. Wipe the chart with a damp cloth when it gets dusty or splashed, and hang it flat at eye level using the plastic roller.

Supplier

Jain Scientific Equipments Private Limited trades as ScienceLab from Ambala, Haryana, and supplies this safety chart together with the goggles, first aid kits and other safety items in its range. Schools, colleges and distributors in India and international markets can quote a complete lab safety package in one enquiry. Learn more on our company profile.

Related Chemistry Lab Equipment

A safety chart is most effective when the equipment it talks about is in the room. Schools usually order these with it:
