## **Product Name:**

**Product Code:** 

Hand-Powered Engine Models

SLE/H/02

## **Description:**

Mounted on a sturdy base.

Placard with key engine components.

Solid construction of cast metal and plastic.

These items are sold separately.

Cycles through all stages with hand crank rotation.

Each model includes a simulated spark plug (lamp) to indicate the firing point.

Depending on the model, this lamp requires 2 AA batteries or a 6- to 12-V power supply (not included).
