Product Name :

Specific Gravity And Water Absorption of
Aggregates

Product Code :

SLE/AG/11

Description :

A mechanical lifting device is used to raise the water tank through the frame height immersing the specimen suspended below the balance.

The buoyancy balance system developed by Science Lab Export consists of a rigid support frame, incorporating a water tank mounted on a platform.

The balance supplied may also be used as a standard weighing device, thus providing a versatile and comprehensive weighing system in the laboratory. 6000 g x 0.1 g supplied with frame, water tank and suspension hook.

Contact Science Lab for your Educational School Science Lab Equipments. We are best technical educational equipments manufacturers, technical educational equipments manufacturer, technical educational equipments supplier, technical educational instruments, technical educational instruments exporter, technical educational instruments manufacturer, vocational training lab instruments exporter.
