Description :

Feature

Each incised section is painted with different colors for education efficiency.

It is manufactured as same as real vehicle and able to check internal engine movement by precise cutting.

Educational Equipment for understanding the structure of 2,900cc CRDI Diesel Engine.

Efficient to educate each part of function and operating principle of CRDI diesel engine.

Each part of engine are painted specifically.

Operated by motors so it runs in the same way of an actual vehicle.

Able to check operation process of inner parts such as pistons, valves and crank.

Specification

Composition : 2,900cc CRDI Delphi engine, Starting Motor, Generator, Air Conditioner

Compressor, Fuel System, Cooling System, Lubrication System, Intake Manifold, 220V Motor,

Safety Breaker, Emergency Switch, Safety Fuse, Engine speed controller

Still frame with Heat treatment painting, 4 wheels brake, Automatic operation type, LED Lamp is on ignition

Weight : Approx. 150 kg

Size : Appox. 700 X 650 X 1,500 mm

Training Contents

How to attach, detach the Generator and Start Motor.

Replacement of the Timing Belt and other various belts.

How to replace the Oil Filter
