Product Name :

Thermal Power Plant with Steam Engine
Trainer

Product Code :

SLE/EA/18

Description :

- A mobile frame contains all the parts of the test set.
- An electric pump draws from a reservoir (included) to deliver water to an electrically-heated boiler.
- The boiler includes a safety valve, water level gauge and 'blow-down cock'.
- A throttling calorimeter allows students to measure the dryness fraction of the steam.
- Two mechanical gauges show the boiler and engine inlet pressures.
- The boiler produces steam to turn a two-cylinder steam motor.
- The equipment includes all instruments needed for the experiments.
- A meter shows the electrical power supplied to the heaters in the boiler.
- The used steam from the motor outlet passes through a mains water-cooled condenser, then down to a waste tank or to a measuring vessel.
- These include a band-brake dynamometer with a digital torque and speed display, to measure and display motor speed, torque and power.
- Thermocouples connect to a digital temperature display to measure and display temperatures at key points in the test set.
- Supply a stopwatch and thermometer to allow accurate measurement of the flow and temperature of the condensate.

Contact Science Lab for your Educational School Science Lab Equipments. We are best school science lab equipments suppliers in india, school science lab instruments, school science lab instruments exporter, school science lab instruments manufacturer, school scientific equipments, science educational equipment.
