Product Name :

Equilibrium Of A Force

Product Code :

SLE/ESA/04

Description :

- For use with the Work Panel, the kit allows several experiments with forces pulling on one or more points at different angles.
- Students may also set it to apply forces to two points.
- Uses masses, hooks, pulleys and cords to apply forces on a single point.
- The kit introduces 'Bow's Notation' and the drawing method of finding the forces.
- Supplies each kit with a fully illustrated user guide containing theory, experiments and typical results.
- The versatility of the kit means that you can set up to five forces at any angles, using its cords, rings, magnetic mounts, magnetic protractors, pulleys, weights and a spring balance.
