Product Name :

Picture Dice With Sticker Sheet

Product Code :

SLE/PP/07

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Picture Dice With Sticker Sheet (Product Code: SLE/PP/07) is a rubber starter dice with animal pictures used to introduce pre-nursery and nursery children to numbers up to 3. Instead of dots, it shows animals that young children enjoy, so counting the pictures feels like play, and an extra sheet of animal pictures comes with it. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a school science kit supplier in India, as a first number toy for pre-primary classes at home and abroad.

Key Details

Parameter	Detail
Dice	Rubber dice with animal pictures
Extra material	Extra sheet of animal pictures
Number range	Numbers up to 3
Intended learners	Pre-nursery and nursery children
Concepts	One-to-one correspondence; cardinality (quantity) of numbers; using counting words
Product code	SLE/PP/07
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Picture Dice Used For?

Before children can work with numerals, they need to link one counting word to each object and understand that the last word they say tells how many there are. Rolling this dice and touching each animal while counting gives exactly that practice, within a small range that toddlers can manage. Animals hold their attention far better than abstract dots, which keeps early number talk meaningful.

Simple circle-time games work well: roll the dice, count the animals together, then collect the same number of blocks or clap that many times. The extra sheet of animal pictures can be used for naming and matching activities away from the dice. The rubber body keeps rolling noise down, which helps in a busy nursery room.

Supplier

Jain Scientific Equipments Private Limited, which operates as ScienceLab, supplies the Picture Dice With Sticker Sheet from Ambala, Haryana, to playschools, nurseries, anganwadi and early-childhood programmes, and dealers in India and international markets. Many buyers order it with the other pre-primary dice, which carry number work further. Company information is on the ScienceLab profile.
