Description :

Decimal Kit (Product Code: SLE/LP/07) is a hands-on set of blocks, coloured cards and wooden dice used to help children understand and visualise decimals through their link with decimal fractions. One kit serves up to 4 children aged 9–13 years and holds 1 large cube, 20 plates, 20 rods and 20 small cubes for showing decimal place value as quantity. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a school science kit supplier in India, as educational lab equipment for maths labs and class kits.

Specifications

Parameter	Detail
Blocks	1 large cube, 20 plates, 20 rods, 20 small cubes
Cards	3 sets of different coloured cards
Dice	3 wooden dice: fraction dice marked 1/10 and 1/100, and a times dice marked 0–5
Games	Multi-level games to consolidate the meaning of decimal notation
Activity guide	Write-up with details of the activities
Group size	1 kit for 4 children
Age	9–13 years
Suitable for	Maths labs and class kits
Product code	SLE/LP/07
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Decimal Kit Used For?

Decimals often feel abstract because a decimal looks like an ordinary number with a dot placed in it. The Decimal Kit lets children see decimals as amounts: one block is chosen to stand for a whole, and the smaller pieces show what tenths and hundredths of it look like. Comparing and ordering decimals then becomes a matter of comparing real quantities rather than counting digits.

Because the kit builds on what children already know about fractions, they convert between decimal and fraction form as they work. The fraction dice marked 1/10 and 1/100, combined with the 0–5 times dice, generate numbers for addition and subtraction games, and the three coloured card sets let the teacher run the games at more than one level.

Supplier

Decimal Kit orders are handled by Jain Scientific Equipments Private Limited, which does business as ScienceLab from Ambala, Haryana. As a school laboratory equipment supplier in India, the company quotes single kits for a maths lab as well as class sets for schools, training institutes and dealers in India and international markets.
