

## **Product Name :**

Force on a Conductor Apparatus

## Product Code : SLE/PHY/98

## **Description :**

A brass axle with plastic discs is free to roll along the rails and completes the electrical contact between them. Comprising a strong U-shaped magnet and a pair of brass rails with 4 mm socket terminals.

When the axle is placed on the rails between the poles of the magnet, and a power supply unit is connected, the axle is repelled and rolls along the rails away from the center of the magnetic field.
