Description :

Currency (Product Code: SLE/LP/22) is a classroom set of practice rupee notes and coins used to teach counting money, making change and converting rupees to paise in primary maths. One set serves up to 6 children aged 8–12 years and holds notes in seven denominations plus 5-, 2- and 1-rupee coins, enough for realistic shop role-play. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Key Details

Parameter	Detail
Notes, 10 of each	1000, 500, 100, 50 and 20 rupee denominations
Notes, 100 of each	10 rupee and 1 rupee denominations
Coins, 10 of each	5 rupee, 2 rupee and 1 rupee
Group size	Up to 6 children per set
Age group	8–12 years
Concepts covered	Identifying notes and coins; converting rupees to paise; adding and subtracting bills; making the same amount with different combinations
Product code	SLE/LP/22
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Currency Set Used For?

The Currency set turns money lessons into a working classroom shop. Children first learn to recognise each note and coin, then take turns as shopkeeper and customer, adding up bills, paying and working out change by subtraction. Converting rupees to paise follows naturally once pupils learn that one rupee is made up of 100 paise.

A popular challenge is to make the same amount in several ways, for example paying 20 rupees with a single note, with two 10-rupee notes, or with a mix of notes and coins. With 100 notes each of the 10 and 1 rupee values, a group of six has plenty of small change to trade without running out. Like the other mathematics lab kits in the range, the set is quickest to use when stored sorted by denomination.

What to Specify When Ordering

- Number of sets — one Currency set suits up to 6 children aged 8–12.
- Current contents — confirm the denomination list in your quotation so it matches the notes and coins your syllabus covers.
- Other maths aids — list any related items below so one quotation covers the whole order.
