Product Name :

Gee Minnow Trap

Product Code :

SLE/EZ/24

Description :

Gee Minnow Trap (Product Code: SLE/EZ/24) is a no-frills wire-mesh trap used to catch small fish passively in ponds and streams for biology and fisheries fieldwork. Students set it in the water and return later, instead of netting actively; it is made of galvanised 1/4 in square wire mesh, measures 16 in long by 9 in wide, and has a 7/8 in entrance hole. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Type	Passive minnow trap
Material	Galvanised 1/4 in square wire mesh
Length	16 in
Width	9 in
Entrance hole	7/8 in
Operation	Set it up and return at your convenience
Product code	SLE/EZ/24
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Minnow Trap Used For?

A minnow trap samples small fish without anyone standing in the water: fish swim in through the entrance hole, often drawn by a little bait, and find it hard to swim back out. That makes it useful where banks are steep or water is too deep for a seine, and for comparing catches between sites or times of day. Traps set side by side in different habitats give a simple, repeatable survey method for a school or college ecology project.

Place the trap in shallow water near cover such as weeds or roots, and tie it to the bank with cord so it can be recovered. Check it within a few hours rather than leaving fish inside for long, then count, measure and release them where they were caught. The galvanised mesh copes with repeated wetting; rinse and dry it after use. Always check local rules on fish sampling and supervise students near water.

Manufacturer

Jain Scientific Equipments Private Limited, which trades as ScienceLab, manufactures the Gee Minnow Trap in Ambala, Haryana, India. Schools, colleges, fisheries and environmental study programmes and dealers can source it together with nets, measuring boards and aerators on one quotation, for delivery across India and to international markets. More about the company is on the company profile page.
