Product Name :

Table Clamp For Rods

Product Code :

SLE/LR/08

Description :

Table Clamp For Rods (Product Code: SLE/LR/08) is a tempered cast iron clamp used to fix a support rod directly to the edge of a laboratory bench or table instead of standing it in a base. It fits table tops up to a maximum thickness of 55 mm and is listed for rods of D/Ø 12/13, so it frees bench space in school, college and research labs. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India, as a space-saving piece of chemistry lab equipment for India.

Specifications

Parameter	Detail
Type	Table (bench-edge) clamp for support rods
Material	Tempered cast iron
Table top thickness	Up to 55 mm maximum
Rod size (D/Ø, as listed)	12/13
Product code	SLE/LR/08
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Table Clamp for Rods Used For?

Clamping a rod to the table borrows the weight of the whole bench, so a tall rod stays steady even when a base would start to tip. That suits long set-ups such as distillation columns, pendulums and demonstration apparatus that must hang well above the work surface. It also keeps the bench area under the rod completely free, which helps on narrow student benches where a stand base would take up room.

Before ordering, measure your table top: the clamp takes edges up to 55 mm thick. Place a thin pad between the jaws and a delicate or laminated surface, tighten firmly without forcing, and check the rod is vertical before loading glassware. Tempered cast iron is heat-treated to reduce the brittleness of ordinary cast iron, so it tolerates regular tightening in a busy chemistry lab.

What to Specify When Ordering

- The thickness of your bench or table top (the clamp takes up to 55 mm).
- The rod diameter you use; the clamp is listed for D/Ø 12/13.
- The number of clamps per lab.
- Whether matching rods should be quoted with them.

OEM Manufacturer

ScienceLab is the brand of Jain Scientific Equipments Private Limited, which makes the Table Clamp For Rods as the OEM (original equipment manufacturer) at its own licensed factory at Saha
