Description :

Bosshead (Product Code: SLE/BH/06) is a general-purpose laboratory bosshead used toconnect clamps, rings and cross rods to stand rods at 180° or 90° in chemistry, physics andbiology rooms. It is listed in three versions — 18/10 stainless steel (d/Ø 16,5, thread 8),aluminium (d/Ø 16,5, thread 8) and a larger aluminium version (d/Ø 27, thread 10) — with fourscrew styles. All three versions are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**,an OEM manufacturer of school chemistry lab equipment in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Angle	180+90 (all versions)
Version 1	18/10 stainless steel, d/Ø 16,5, thread 8
Version 2	Aluminium, d/Ø 16,5, thread 8
Version 3	Aluminium, d/Ø 27, thread 10
Screw types	Safety screw, heart type; thumb screw; safety screw, thumb type; heart screw
Product code	SLE/BH/06
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Laboratory Bosshead Used For?

This listing is useful when one order has to cover different stands in a building. The stainless version handles corrosive wet-chemistry benches, the standard aluminium version keeps student stands light, and the larger aluminium version with d/Ø 27 and thread 10 is intended for thicker rods. Because every version offers both 180° and 90° positions, the same bosshead can hold a clamp out from the rod or line up a second rod alongside it.

In daily use, slide the bosshead onto the stand rod, tighten it at working height, insert the clamp shank or cross rod in the second bore and tighten again. Safety screws suit shared teaching labs because they are meant to stay attached, while plain heart or thumb screws are quicker to swap. For a complete school laboratory setup in India, order spare bossheads for each retort stand so complex setups can be built without dismantling others.

What to Specify When Ordering

- Version: 18/10 stainless steel (d/Ø 16,5, thread 8), aluminium (d/Ø 16,5, thread 8) or aluminium (d/Ø 27, thread 10).
- Screw style: heart screw, thumb screw, or safety screw of heart or thumb type.
- Your rod diameter, so the matching d/Ø size is chosen.
- Quantity of each version if you are equipping several rooms.
