## Description :

**Bosshead Swivel Type, Malleable Cast Iron, Chromium Plated** (Product Code: SLE/BH/08) is a rotating bosshead used to join a clamp shank or cross rod to a stand rod and lock it at anyangle through 0-360° in school and college laboratories. Its tempered cast iron body is chromiumplated and tightened by a thumb screw, and it is listed with d/Ø 16,5 and thread 8. It is an OEMproduct of **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, made at the company's ownfactory in Ambala, India.

### Specifications

| Parameter | Detail |
|---|---|
| Type | Swivel bosshead |
| Material | Malleable (tempered) cast iron, chromium plated |
| Screw type | Thumb screw |
| d/Ø | 16,5 (decimal comma, as catalogued) |
| Angle | 0-360° |
| Thread | 8 |
| Product code | SLE/BH/08 |
| Manufacturer | Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM |
| Country of origin | India (made in Ambala, Haryana) |

### What Is the Chromium-Plated Swivel Bosshead Used For?

Plenty of practicals need something held on a slope: a test tube tilted over a burner so condensate cannot run back onto hot glass, a delivery tube angled into a gas jar, a thermometer set into a side-arm flask, or an inclined track or mirror in a physics demonstration. In distillation apparatus on a school bench, the swivel joint lets the condenser fall gently towards the receiver without forcing the clamp. It is a useful part of any retort stand lab setup where apparatus must lean rather than sit square to the stand.

Tighten the stand-rod side first, pass the clamp shank through the other side, rotate it to the angle you need and lock it with the thumb screw, keeping a hand under any glassware while you adjust. The chromium plating gives a bright surface that is easy to wipe; rinse off acid or salt splashes promptly and dry the joint so the plating stays intact.

### OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM that makes this chromium-plated swivel bosshead at its own licensed factory at Saha, Ambala, Haryana, India. It is not a traded item: schools, engineering colleges, lab dealers and importers buy it from the manufacturer, and repeat orders are handled by the same company. Learn more on th
