Description :

Box Storage 100 slides, Set of 10 (Product Code: SLE/CL/06) is a set of ten microscope slide storage boxes, each suitable for 100 standard slides of 7.6 x 2.6 cm. The boxes are made of resistant thermoplastic ABS with a cork base, a lid with a sturdy lock and an index card holder in the flap cover, so stained smears, reference slides and teaching collections can be filed, labelled and kept secure. The set is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for clinical, pathology and teaching laboratories.

Specifications

Parameter	Detail
Capacity	Suitable for 100 microscope slides per box
Slide size	Standard microscope slides, 7.6 x 2.6 cm
Box material	Resistant thermoplastic ABS
Base	Cork
Closure	Lid with a sturdy lock
Labelling	Index card holder on the flap cover
Supplied as	Set of 10 boxes
Estimated volume (as listed)	90 dm3
Estimated weight (as listed)	12 kg

Typical Use

Laboratories keep stained blood films, malaria smears, TB smears and histology sections for re-examination, quality control rechecking and teaching. Slides are dried completely, labelled, and placed in the box; the index card on the flap records the batch, date range or slide numbers so the right box can be located without opening several. With ten boxes in one set, a laboratory can dedicate separate boxes to different tests or months.

Colleges and schools that keep prepared microscope slides in India or elsewhere use the same boxes to protect teaching collections between practicals. Store the closed, locked boxes flat in a cool, dry cupboard away from direct sunlight so stains do not fade, and never box slides while mounting media or immersion oil is still wet.

Manufacturer

ScienceLab is the brand name used by Jain Scientific Equipments Private Limited, registered under CIN U29309HR2020PTC087597 in Ambala, Haryana. Its manufacturing is carried out at the company's licensed premises at 449, HSIIDC Industrial Area, Saha, Ambala, operating under Factory Licence AMB-ONLINE-CHD-J-414. More information is on the ScienceLab profile page.
