Description :

Mask Surgical Tie Strap Disposable (Product Code: SLE/CL/12) is a single-use type IIRsurgical mask that fastens with tie straps rather than elastic, worn to protect the nose, mouth andchin wherever there is a risk of splash contamination. It is built from 3–4 non-woven layers withan impervious, liquid-splash-resistant outer layer and clearly identifiable inner and outer surfaces, and it comes in boxes of 50. The mask is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, to laboratories ranging from hospital labs to reference centres that are stocking disposable lab equipment in India.

Specifications

Parameter	Detail
Type	Surgical mask, type IIR
Material	Non-woven, with an outer layer of impervious liquid-splash-resistant material
Construction	3–4 non-woven layers; clearly identifiable inner and outer surfaces
Fastening	2x2 tie straps allowing correct fixation, secured at the back of the head
Filtration	High bacterial filtration efficiency (as listed)
Size	Approx. 17 x 10 cm (l x w)
Use	Single-use disposable
Supplied as	Box of 50 masks
Estimated weight / volume	0.3 kg / 0.0019 m³

Typical Use

In the laboratory this mask is worn for tasks where droplets or splashes can reach the face: opening sample tubes, decanting specimens, loading a centrifuge, handling cultures on an open bench or cleaning up a spill. Tie straps let the wearer adjust the fit to the head rather than relying on fixed ear loops, which many staff find more secure during long sessions and when the mask is worn with safety goggles.

To put it on, identify the outer (splash-resistant) surface, place the mask over nose, mouth and chin, tie the upper pair of straps at the crown and the lower pair at the nape, then shape the upper edge to the face. Replace the mask when it becomes damp or soiled, and remove it by the straps only, discarding it straight into a waste bag. Keep a box at each workstation along with gloves and lab coats — part of a sensible routine for any lab consumables supplier India order covering personal protection.
