Product Name :

Advanced Adult CPR Training Manikin

Product Code :

SLE/BL/02

Description :

Advanced Adult CPR Training Manikin (Product Code: SLE/BL/02) is an adult simulationmodel on which trainees practise reviving a patient with chest compressions (heart pressure) andmouth-to-mouth respiration. It tells the trainee whether each action is correct through lightindicators, audio prompting and grade printing, and a digital counter is built into the feedbackdisplay. Hospitals, medical colleges and nursing training institutes use it for basic life supportteaching, and it is a practical piece of lab equipment for college India skills labs. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Key Details

Parameter	Detail
Type	Adult CPR simulation model
Design basis	Designed according to the International CPR standard
Skills practised	Heart pressure (chest compression) and mouth-to-mouth respiration
Ventilation feedback	Light indicator display for correct and incorrect artificial respiration (mouth-to-mouth)
Compression feedback	Light indicator display for correct compression position andwrong compression position
Other feedback	Audio prompting, grade printing, digital counter
Suitable for	Hospitals, medical colleges and nursing training institutes

Typical Use

A typical session starts with the instructor demonstrating hand placement and head-tilt for rescue breaths, after which each trainee performs cycles of compressions and ventilations while the lights confirm correct or wrong hand position and correct or incorrect breaths. Audio prompts guide the trainee in real time, and the grade printout gives a record of the attempt that can be discussed afterwards or kept in the trainee's skills file — useful for assessment days in nursing schools and hospital in-service programmes.

Beyond clinical courses, the manikin can anchor a first aid training kit school or workplace safety teams use for awareness drills. Rotate trainees so everyone gets hands-on time, clean the face and mouth area between users according to your hygiene protocol, and store the manikin flat in its packing so the chest and indicator parts are not strained.

Manufacturer

This training manikin is offered by Jain Scientific Equipments Private Limited, an Ambala, Haryana manufacturer of medical education and science teaching equipment that trades as ScienceLab. Our company profile has more about the company.
