Description :

The **Science Teaching Kit** (Product Code: SLE/EK/03) is a primary science teaching aids kit for grades 1–6, packed in a lockable metal box so that a whole school's demonstration apparatus stays together in one place. Its 32 items, including instruction manuals and the box, cover forces and simple machines, sound, heat, electricity, magnetism, light, plant growth, earth science and air pressure. It is intended mainly for teacher demonstrations but also works as a hands-on science kit for primary school student activities, and it is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.
