Description :

Screw Cap Conic Tube (Product Code: SLE/CL/41) is a graduated, conical-bottom test tube made of polyethylene terephthalate (PET) with a screw cap and wide neck, designed for routine centrifugation. It is offered in 15ml and 50ml capacities and is used in hospital laboratories and reference centres for a variety of tests, from sediment preparation to sample aliquoting. The tube is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a lab plastic wareand laboratory equipment supplier in India serving clinical and research buyers.

Specifications

Parameter	Detail
Type	Test tube for routine centrifugation
Material	Polyethylene terephthalate (PET)
Bottom	Conical
Neck	Wide neck
Markings	Graduated
Closure	Screw cap
Capacity	15ml and 50ml
Used in	Hospital laboratories and reference centres, for multiple tests

Typical Use

The conical base gathers solids into a small, tight pellet during spinning, which is why these tubes are used for urine sediment work, washing cell suspensions, concentrating specimens and separating liquids before analysis. The wide neck makes it easy to pour or pipette samples in, the graduations give a quick visual check of volume, and the screw cap helps contain splashes and aerosols while the tube is handled or centrifuged.

Always load tubes in balanced pairs of the same size and fill level, and make sure your rotor or buckets accept conical tubes of the capacity you choose before ordering. Many buyers pair the 15ml size with a benchtop laboratory centrifuge in India for routine clinical work and use the 50ml size for larger preparation or transport volumes. After spinning, remove the supernatant carefully with a pipette so the pellet is not disturbed.

Supplier

The tube comes from Jain Scientific Equipments Private Limited, an Ambala, Haryana company trading as ScienceLab that supplies plasticware and consumables to laboratories. For vendor registration, the company's GSTIN is 06AAECJ8618A1ZT, and export orders are handled under Importer-Exporter Code AAECJ8618A issued by DGFT. See the company profile for details.
