Product Name :

Paint, Chalkboard, Black

Product Code :

SLE/CS/011

Description :

Paint, Chalkboard, Black (Product Code: SLE/CS/011) is a water-based black paint for giving worn blackboards, student slates and painted classroom walls a fresh writing surface that takes chalk and slate pencil again. Head teachers, maintenance staff and school builders use it when older boards turn grey or shiny, making it an inexpensive step in any classroom or school lab renovation in India. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, together with the matching chalkboard paint brush.

Specifications

Parameter	Detail
Colour	Black
Type	Water-based blackboard paint
Safety properties	Non-inflammable, non-toxic
Pack	Tin of 500ml
Lid	Spring-locked lid to prevent spillage during transport
Tin opening	65mm diameter, enough to accommodate the paint brush (width 50-60mm)
Labelling	Clear instructions for use, instructions on cleaning the brush after painting, and storage conditions (frost-free)
Suitable surfaces	Blackboards, slates and walls used as blackboards
Writing tools	Blackboard chalk and slate pencil

Typical Use

Before repainting, dust the board thoroughly, wash away grease or old chalk residue and let the surface dry completely. Dip the brush straight into the tin — the wide opening is sized for it — and lay on thin, even strokes in one direction, following the directions printed on the tin label for recoating and drying. Leave the board out of use until the paint has fully cured so the first chalk marks do not scratch the fresh layer.

A tin is equally useful for touching up the edges of a chalkboard panel, restoring a class set of slates, or turning a smooth section of plastered wall into an extra writing area for pupils. As a school lab equipment supplier in India, we recommend ordering the paint with the chalkboard brush so maintenance staff have both items when the work is scheduled, usually during school holidays.

Manufacturer

The paint is manufactured by ScienceLab, the trading name of Jain Scientific Equipments Private Limited in Ambala, Haryana. The company's CIN (U29309HR2020PTC087597) and GSTIN (06A
