Product Name :

Appendix and Caecum Model

Product Code :

SLE/BL/06

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Appendix and Caecum Model (Product Code: SLE/BL/06) is a natural size PVC model of the junction between the small and large intestine, showing the wall of the caecum and the appendix and marking 17 positions for study. It separates into 2 parts and is mounted on a stand, so it can be taken apart during a lesson and reassembled afterwards. Medical and nursing colleges, surgical trainees and senior biology classes use it when teaching digestion and conditions suchas appendicitis. Institutions looking for a biology lab equipment supplier India can order it from **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, which makes it.

Specifications

Parameter	Detail
Material	Advanced PVC
Size	Natural size
Structures shown	Wall of the caecum and appendix
Positions shown	17
Parts	Separates into 2 parts
Mounting	Mounted on a stand

Typical Use

Because it is natural size, the model gives students a realistic sense of how small the appendix is compared with the caecum it hangs from — something diagrams rarely convey. In a lesson on the digestive tract, the teacher can show the model assembled first, then separate the two parts to look more closely at the caecum wall and the appendix. Medical and nursing students use the same model when learning about appendicitis, why the site of pain can vary, and what a surgeon looks for during an appendectomy.

For school biology lab equipment in India classrooms, it pairs well with a full digestive system model so learners can locate the caecum within the whole tract before looking at it in detail. Keep the stand on a flat surface, rejoin the two parts carefully after each lesson, and wipe the PVC with a mild soap solution when it needs cleaning.

Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, produces anatomy teaching models in Ambala, Haryana for schools, colleges and hospitals. Tender and procurement teams needing vendor details can use GSTIN 06AAECJ8618A1ZT and Legal Entity Identifier 3358004HRD1JIVXKYX49. More about us is on the company profile.
