Cleaning	Easy cleaning with a dry or wet cloth
Hanging	Two 10mm diameter eyelets (holes) on the 1160 mm side, permitting hanging and use of both sides
Intended for	Classrooms indoors and/or outdoors
Estimated weight	5.25 kg
Estimated volume	5.405 cdm

Typical Use

Schools without fixed wall boards hang the panel on two hooks or pegs using its eyelets, while those with a permanent board use it as a second writing space for group work, a notice board for the day's homework, or an outdoor board for lessons held under a shelter. Teachers can prepare one face before class — a map outline, a table or a set of questions — and simply turn the board round when it is needed.

Both white slate pencil and chalk write well on the textured paint, and the surface wipes clean with a dry cloth for daily use or a damp cloth for a deeper clean. Let a wet-cleaned board dry before writing on it again. As part of a complete lab setup for schools in India, a panel at the demo g the ro
