Description :

Chalk, White (Product Code: SLE/CS/022) is everyday extruded classroom chalk for writing on chalkboards and slates, packed 100 sticks to a box — 90 white for general writing and 10 yellow for headings, key words and emphasis. Each cylindrical stick is about 80mm long and 10mm in diameter, and the non-toxic mix is based on calcium carbonate with talcum powder and bentonite. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a lab consumables supplier in India that also provides the boards and dusters it is used with.

Specifications

Parameter	Detail
Type	Chalk, cylindrical, extruded
Stick size	Length approx. 80 mm, diameter 10 mm
Composition	60% calcium carbonate, 29% talcum powder, 11% bentonite
Safety	Non-toxic
Colours	White and yellow
Box contents	100 chalks per box: 90 white and 10 yellow
For use with	Chalkboard or slate
Suitable for	Bulk classroom supplies or replenishing individual students' requirements
Estimated weight	1.5kg
Estimated volume	1.275cdm

Typical Use

Teachers write lesson notes and working in white and switch to a yellow stick to underline the answer, the formula to remember or the day's homework, so key points stand out from across the room. Pupils use the same chalk on slates for letters, sums and quick sketches. To limit breakage, hold the stick near the writing end at a low angle and snap long sticks in half for small hands; keep boxes in a dry cupboard, as chalk absorbs moisture and becomes harder to write with when damp.

Because a single box serves a class for a period of regular use, schools usually order by the carton at the start of term and hand out boxes to each room, keeping a reserve to replenish individual students. Chalk is a routine line item in school supply and school science lab tenders in India, and the estimated 1.5kg box weight helps storekeepers plan shelf space and transport.

Manufacturer

This chalk is manufactured by ScienceLab, the trading name of Jain Scientific Equipments Private Limited in Ambala, Haryana, which pairs everyday classroom consumables with the teaching equipment it manufactures for schools in India and international markets. Our company profile
