Description :

Description:

Electronic temperature monitoring and controlling

Maximum capacity: 32 Litres; with natural convection

Double wall construction for temperature insulation

Double door outside metal, inside made of tempered glass providing viewing of content

Micro-processor controlled stable temperature for culturing of media

Temperature range 5°C above ambient up to 80°C

Temperature setting +20°C to +80°C; adjustment precision 0.1 K

Control, Single DISPLAY, and Adaptive multifunctional digital PID-microprocessor controller with high definition TFT-colour display.

User setting of temperature and time

Outer cabinet: Easy-to-clean stainless steel construction. Rear zinc-plated steel.

Power requirements: 100V ~ 240V, 50/60Hz Function to stabilize power preventing unit from voltage surge accidentally.

Electronic on-off control, as well as a safety device against overheating

Unit fit with 3 shelves, adjustable height

Inner chamber, stainless steel

Intended use

Incubator with the ability to hold certain temperature to incubate tests and samples
