Description :

Transparent Adhesive Tape (Product Code: SLE/S/01) is a clear adhesive tape roll used to fix paper, labels and charts in classrooms, offices and school laboratories. Teachers and students rely on each 15 mm × 10 m roll, whose adhesive stays consistently strong in a variety of climatic conditions. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a school laboratory equipment supplier in India that also provides classroom stationery.

Specifications

Length	10 m per roll
Adhesion	Adhesive and tape sufficiently and consistently strong to attach itemsin a variety of climatic conditions
Product code	SLE/S/01
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Transparent Adhesive Tape Used For?

In a classroom, clear tape holds worksheets into exercise books, mounts pressed leaves and pictures in project files, fixes charts to walls and mends torn pages without hiding the print underneath. In the school laboratory it is handy for labelling test tubes, sample bags and specimen jars, and for taping graph paper or results sheets into practical notebooks.

The 15 mm width suits labels and paper edges, and a 10 m roll goes a long way in everyday class use. Store rolls away from heat and direct sun so the adhesive keeps its grip, and press the tape down firmly for a secure hold. Schools can add tape rolls to a school lab equipment bulk supply order at the start of term.

Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, manufactures Transparent Adhesive Tape in Ambala, Haryana, as part of the classroom consumables it makes for schools. Quotations cover schools, education departments and distributors in India and international markets. Find out more on our company profile.
