Description :

Crayon Wax Jumbo Assorted Colours (Product Code: SLE/S/03) is a box of 8 jumbo wax crayons used by young children for drawing and colouring in pre-primary and primary classrooms. Each crayon is 100 mm long and 15 mm wide, wrapped in a secure paper sleeve and made sturdy to resist easy breakage, while the wax lets children draw smoothly and continuously. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, alongside its pre-primary science kit range in India.

Specifications

Parameter	Detail
Type	Wax crayons, jumbo size

Build	Sturdy, resistant to easy breakage; wax consistency for easy, continuous drawing
Feel and material	Smooth; described as non-toxic
Product code	SLE/S/03
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Jumbo Wax Crayons Used For?

Jumbo crayons are sized for small hands that are still developing a pencil grip, so they are a common first drawing tool in nursery, kindergarten and early primary classes. Children use them to colour worksheets, draw freely, practise shapes and patterns, and make leaf or coin rubbings in simple nature and science activities.

At 15 mm wide, each crayon is thick enough to stand up to firm pressure, and the paper sleeve keeps fingers cleaner and holds any broken pieces together. Eight colours per box, such as red, orange, yellow, green, blue, purple, brown and black, cover the basics for early colour-recognition lessons. Peel the sleeve back gradually as the crayon wears down.

Supplier

Jain Scientific Equipments Private Limited, known by its trading name ScienceLab, supplies these jumbo wax crayons from Ambala, Haryana, sourcing them for schools and early childhood programmes. Buyers importing from India can reference our Importer-Exporter Code AAECJ8618A, while Indian schools and departments can register the company as a vendor with GSTI
