Description :

Eraser Soft for Pencil (Product Code: SLE/S/08) is a soft white rubber eraser used to remove pencil marks from paper in classrooms, tests and drawing lessons. Measuring 30 x 20 x 10 mm, it is made of synthetic or natural rubber that lifts graphite without staining the page and wears down at an even rate. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, alongside the science kits for students in India that the company offers schools.

Specifications

Parameter	Detail
Type	Soft eraser for pencil
Material	Synthetic or natural rubber
Colour	White
Dimensions	30 x 20 x 10 mm
Performance	Removes pencil marks without staining; erodes at a uniform rate
Toxicity	Specified as non-toxic
Product code	SLE/S/08
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Soft Pencil Eraser Used For?

Pupils use a soft eraser to correct written answers, tidy construction lines in geometry and clean up labelled diagrams in biology and physics notebooks. A soft white rubber is gentle on thin exercise-book paper, so it lifts graphite without roughening the surface, and because it erodes evenly it keeps a usable edge for small corrections between closely written lines.

For the neatest result, hold the paper flat with one hand and rub in one direction with light pressure, then brush the crumbs away instead of blowing on the page. Keep the eraser in a pencil case away from ink and dirty benches, since grime picked up on its surface can transfer back to the paper. The 30 x 20 x 10 mm block is a handy size for a pupil's pencil case or a shared class tray.

Supplier

ScienceLab is the brand used by Jain Scientific Equipments Private Limited of Ambala, Haryana. The company supplies this Eraser Soft for Pencil among the everyday stationery that schools, education departments and distributors order together with their science and mathematics equipment, for delivery in India and international markets.
