Description :

Baby Dressing Table (Product Code: SLE/HF/05) is a worktable designed specifically for dressing and changing babies in a clinical setting, with a padded mattress whose raised edges on three sides help keep the infant on the surface. Below the worktop it provides 2 drawers, 1 shelf and 1 cabinet with door, so nappies, clothing and dressing supplies stay within reach of thenurse. Maternity wards, neonatal and paediatric units and immunisation clinics use it, and it ismade by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a laboratory equipment manufacturer in India that also produces hospital furniture.

Specifications

Parameter	Detail
Type	Worktable for baby dressing in a clinical setting
Mattress	Single, padded, shaped to fit the worktable top with raisededges on 3 sides; detachable for cleaning; high-densitypolyurethane foam, density 18–22 kg/m³; 4.5–5.5 cm high
Mattress cover	Plastic, flexible, highly tear resistant, anti-static, flame retardant, disinfectant- and liquid-proof, washable; removable via side zipper
Raised edges	Supported by the worktable frame; elevation on 3 sides 13.5–16.5 cm (without mattress)
Storage	2 drawers, 1 shelf and 1 cabinet with door; recessed finger grip-holds leave the front entirely flat
Drawer runners	Recession track with guiding wheel, smoothly finished for easy sliding
Supports	4 sturdy supports with height adjustable feet (rubber or nylon); transfer bars connect the lower distal portions for structural strength
Materials	Panels, drawers and cabinet in epoxy coated plate steel; frame in epoxy coated tubular steel; high resistance to corrosion (tropical environment)
Worktable surface height (incl. mattress)	103–110 cm
Overall size (without mattress, excluding raised edges)	90–110 × 54–66 × 86–108 cm (l × d × h)
Frame tube	2.7–3.3 cm (outside, across), 1.8–2.2 mm thickness
Drawer, door and panel thickness	1–1.4 mm
Drawers	38–47 × 45–56 × 20.5–27.5 cm (l × d × h)
Cab	30
