Product Name :

Examination Table

Product Code :

SLE/HF/06

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

A two-section padded examination table whose backrest angle is set and held by a secured pawl and gear ratchet. With the backrest fully lowered, both sections line up as one flat surface. It stands on an epoxy-coated tubular steel frame with 4 levelling feet and has a carrying capacity of at least 160 kg. It suits consulting rooms, outpatient areas, health rooms and clinical-skills labs.

Examination table construction and size

Parameter	Detail
Type	Examination table in 2 sections
Backrest	Angle adjustable with a secured pawl and gear ratchet
Flat position	Both sections align to a flat surface when fully extended
Supports	4 supports with height adjustable rubber or nylon feet; transfer bars join the lower ends of all 4 supports
Upholstery	Non-removable padding on both sections; high-density polyurethane foam, density 27–33 kg/m³, 4.5–5.5 cm thick
Cover	Flexible plastic; highly tear resistant, anti-static, flame retardant, disinfectant- and liquid-proof, washable
Frame	Epoxy coated tubular steel, 2.7–3.3 cm outside across, wall at least 1.35 mm thick
Corrosion resistance	High, for tropical environments
Size, both sections extended (incl. upholstery)	185–187 × 55–56 × 79–81 cm (l × w × h)
Carrying capacity	Minimum 160 kg
Minimum order	10 units
Dispatch	Usually within 7 to 10 working days
Manufacturer	ScienceLab (Jain Scientific Equipments Pvt Ltd), Ambala, India

Using the examination table in clinics and skills labs

Positioning practice. In pairs, one student lies flat with the backrest lowered while the other drapes the body and checks alignment. The backrest is then raised a notch at a time on the ratchet for the semi-reclined positions, and the partner uses a pillow to stop the person slumping to one side. A two-step footstool helps each person climb on and off.

Blood pressure station. The student volunteer reclines on the raised backrest with the arm sphy volu
