Description :

Clinical Thermometer Digital (Product Code: SLE/MDE/04) is an electronic, glass-free and mercury-free thermometer used to measure body temperature in wards, outpatient clinics, school health rooms and nursing training. It reads 34–42 °C on a liquid crystal display, is specified to ± 0.1 °C between 35 and 41 °C, and is waterproof for cleaning between patients. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as part of its range of scientific & laboratory instruments.

Specifications

Parameter	Detail
Type	Electronic, digital clinical thermometer; glass and mercury free
Measurement range	34–42 °C (minimum guaranteed)
Accuracy	± 0.1 °C in the range 35–41 °C
Scale	Celsius
Display	Liquid crystal display (LCD)
Alerts	Beep audio alert; low battery indicator
Power	Battery powered, batteries included in the supply; automatic switch-off
Cleaning	Waterproof, suitable for cleaning and disinfection
Product code	SLE/MDE/04
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Digital Clinical Thermometer Used For?

A digital clinical thermometer is used to check body temperature when screening for fever or following a patient's temperature over a course of care. With no glass tube and no mercury there is nothing to break or spill, which makes it practical for busy wards, school health rooms and outreach programmes.

Switch it on, place the tip at the measuring site your facility's procedure specifies and wait for the beep before reading the LCD. Wipe and disinfect the waterproof thermometer after each patient, and change the battery when the low-battery indicator appears. Nursing students use it when learning temperature charting.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, sources and supplies this digital clinical thermometer from Ambala, Haryana for hospitals, clinics, school health programmes, dealers and importers. It is usually quoted in quantity alongside other vital-signs instruments. Visit our company profile for more about the company.
