Description :

Needle, Disposable, 23G, Sterile (Product Code: SLE/HLI/07) is a single-use hypodermicneedle that fits onto a Luer syringe and is used to inject or withdraw fluids in hospitals, clinics andnursing-skills laboratories. Its 23G x 1 inch (0.6 x 25 mm) size makes it the finest gauge amongthe disposable needles in this ScienceLab range. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, for buyers sourcing ward and training consumables.

Specifications

Parameter	Detail
Size	23G x 1 inch (0.6 x 25 mm)
Needle material	Stainless steel
Base and protective cap	Medical grade plastic
Size marking	External diameter expressed in gauge and millimetres; length in inches and millimetres
Condition	Sterile (as named), disposable
Product code	SLE/HLI/07
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the 23G Disposable Needle Used For?

Needle gauge numbers run in reverse: the higher the number, the thinner the needle. At 23G the bore is narrow and the shaft is only 25 mm long, so clinicians tend to pair it with small syringes and thin, free-flowing liquids when a finer puncture is wanted. The final choice of gauge and length for any procedure rests with the prescribing or treating professional.

In nursing colleges and simulation labs, a box of 23G needles is a common teaching item for demonstrating how to attach a needle to the Luer fitting, remove the protective cap without touching the shaft, and discard the needle safely. Because the size is printed in both gauge and millimetres, trainees also learn to read needle labels. Institutions buying from a lab consumables supplier in India usually stock it next to the wider-bore needle sizes in the same range.

What to Specify When Ordering

- The 23G x 1 inch size, or any other gauge you need alongside it.
- Number of needles (ask us for the standard box quantity).
- Matching syringe sizes, if you want one combined quotation.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited in Ambala, Haryana. The company supplies these 23G needles as part of a wider hospital-consumables list, so a clinic or training institute can source needles, syringes and waste containers from one point of co
