Description :

A blue, transparent wristband that gives each child in a clinic, nutrition programme or survey a personal identity tag. Details are written straight onto the band with a ballpoint pen, or onto a paper strip slid inside it, and a single-use clip locks it shut. Many centres pair blue bands with red ones to mark two groups.

Blue child ID band specifications

Parameter	Detail
Colour	Blue
Use	Paediatric personal identification; single use
Band	Transparent, tamper proof, supple non-stretch plastic (LDPE-based, vinyl or equivalent)
Chemical resistance	Resistant to water, common solvents and soaps
Feel	Soft to the touch; strong and durable
Locking	Single-use clip; once clicked into position it cannot be removed
Recording details	Ballpoint pen directly on the band (non-erasable), or on a paper strip slid into the transparent band
Size	Approximately 1 cm wide x 25 cm long
Fitting	Length adjusts at the closure; excess strap can be trimmed where it leaves the clip
Product code	SLE/AE/05
Minimum order	10 units
Dispatch	Usually within 7 to 10 working days
Supplied by	ScienceLab (Jain Scientific Equipments Pvt Ltd), Ambala, India

Registering children with the blue ID band

Pre-written survey bands. Before a field round, the team writes the household or survey number on a batch of blue bands and lets the ink dry. On site, the child's name is added, the band is fitted and the same number goes on the record sheet beside the mother and child scale reading.

Two-colour sorting. In a feeding programme, children in one enrolment group wear blue and those in another wear the red ID band, following the centre's own protocol. Staff can then call one group at a time to the infant clinic scale without reading every tag.
