Product Name :

Measuring Jug 1 litre

Product Code :

SLE/MU/05

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Measuring Jug 1 litre (Product Code: SLE/MU/05) is a 1000ml polypropylene jug with a handle, used to measure and pour liquids in hospitals, laboratories, kitchens and feeding centres. Buyers pick it because the graduations are embossed at every 50ml, so they cannot wear off with washing, and the polypropylene body is autoclavable. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a laboratory equipment supplier in India.

Specifications

Parameter	Detail
Capacity	1000ml (1 litre)
Material	Polypropylene, autoclavable
Graduation	Indelible, embossed, every 50ml
Handle	Yes
Typical settings	Kitchen, laboratory, hospital, feeding centre
Product code	SLE/MU/05
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the 1 Litre Measuring Jug Used For?

This is a basic, multiple-use item. In a hospital it measures water for diluting cleaning and disinfectant concentrates, or fluids for patient care; in a feeding centre it portions water for preparing feeds; and in a laboratory it measures larger volumes where the precision of a measuring cylinder is not needed. The handle and pouring shape make it easy to fill bottles and bowls without spills.

To read a volume, stand the jug on a level surface and read at eye level against the nearest 50ml mark. Because the markings are embossed into the polypropylene rather than printed, they stay readable after repeated washing and autoclaving. Many facilities keep separate jugs for food preparation and for chemicals, and label them clearly so they are never swapped.

Supplier

ScienceLab, the trading name of Jain Scientific Equipments Private Limited, supplies this measuring jug from Ambala, Haryana, both with its medical utensils and with its laboratory plasticware. Hospitals, nutrition programmes, schools, dealers and importers in India and international markets can include it on a wider order. Read about the company on the profile page.
