Description :

Deaver Scissors Straight Sharp/Blunt (Product Code: SLE/SI/07) are 14 cm straight operating scissors, one blade pointed and one blunt, used for basic surgical operations such as cutting sutures, dressings and superficial tissue. Their straight blades cut in a direct line, which suits suture trimming and ward work, and they are made of quenched, magnetic martensitic steel with 14% chromium. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a supplier of scientific & laboratory instruments.

Specifications

Parameter	Detail
Material	Martensitic steel (quenched, magnetic)
Composition	0.40% carbon; 14% chromium
Blades	Straight, with one pointed and one blunt end
Length	14 cm
Type	Operating (surgical) scissors, Deaver pattern
Intended use	Basic surgical operations
Product code	SLE/SI/07
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Straight Deaver Scissors Used For?

Straight scissors are the everyday choice where a clean, direct line of cut matters: trimming suture ends after the knot is tied, cutting dressings and tapes, and dividing superficial tissue during minor procedures. The pointed blade slips into a suture loop, while the blunt blade rests against skin or dressings as the cut is made.

Many theatres keep a dedicated straight pair for sutures so that tissue scissors stay sharp. Hold them with thumb and ring finger in the bows and the index finger along the shank for steady control. Clinics and nursing schools ordering from lab equipment exporters often buy them with needle holders and forceps for suturing trays.

What to Specify When Ordering

- Total pairs needed
- Straight pattern, curved pattern or both
- Whether they are needed within a suture set with needle holders and forceps

Supplier

Jain Scientific Equipments Private Limited supplies these straight Deaver scissors under its ScienceLab name from Ambala, Haryana. Clinics, operating theatres, nursing schools, distributors and importers can order them singly or with needle holders and forceps for a comp
