Description :

Collin Tissue Forceps (Product Code: SLE/SI/24) is a springy, ratcheted gripping forceps used to hold soft and delicate tissues such as the intestines during open surgery. Surgeons, theatre nurses and surgical teaching departments choose it for its 16 cm length and ridged grippers with triangular apertures, whose pronounced ridges are non-traumatic. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as part of its range of scientific & laboratory instruments for hospitals and medical colleges.

Specifications

Parameter	Detail
Type	Gripping (tissue-holding) forceps, springy
Grippers	Ridged, each with a triangular aperture; pronounced but non-traumatic ridges
Ratchet	Soft ratchet, lockable
Length	16 cm
Material	Martensitic steel (quenched, magnetic)
Composition	0.20% carbon; 13% chromium
Intended use	Gripping soft and delicate tissues (intestines)
Product code	SLE/SI/24
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Collin Tissue Forceps Used For?

The Collin forceps is applied where tissue has to be held firmly without being crushed, most typically loops of bowel that the surgeon needs to lift, turn or keep in position. The triangular openings in the jaws let a fold of tissue sit inside the grip, the ridges add traction, and the lockable soft ratchet keeps the hold steady so the hands are free for the next step.

At 16 cm it suits open abdominal work at moderate depth, and nursing and surgical training programmes use it to teach how tissue-holding forceps differ from haemostats. Medical colleges ordering from a laboratory instruments supplier in India often add it to instrument-identification sets. After use, clean the ratchet and the ridged jaws carefully and reprocess the forceps according to your facility's protocol.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, based in Ambala, Haryana. The company sources and supplies the Collin Tissue Forceps together with other general-surgery instruments for hospitals, surgical training centres, distributors and importers in India and international markets.
