Description :

Molecular Model Set – College, Organic, Student (Product Code: SLE/Mo/25) is a student modelling set of atom parts and links used to build organic molecules in college chemistry practicals and tutorials. Its atom parts are solid clouded plastic spheres with 1 to 6 holes set in the usual angular orientations, so students assemble realistic bond geometries. The set is produced by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Level	College
Subject focus	Organic chemistry
Contents	A variety of atom parts and links for building a large number of possible structures
Atom parts	Solid clouded plastic spheres
Hole configurations	1 to 6 holes in the usual angular orientations
Compatibility	Fully compatible with the other sets in the range
Product code	SLE/Mo/25
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the College Organic Student Model Set Used For?

The set gives each student or pair a hands-on way to build the organic structures met in lectures, such as alkanes, alkenes, alcohols, carboxylic acids and their isomers. Because atom parts come with different numbers of holes arranged at the usual bond angles, the geometry of a carbon with four bonds or an oxygen with two follows naturally from the part itself.

A good routine is to give students a formula, have them build it, and then draw the three-dimensional structure from the model. Since the range is fully compatible, parts from this set can be combined with a teacher set when a larger structure is needed. It works as a practical chemistry teaching kit for college organic courses in India and international markets.

What to Specify When Ordering

- The number of student sets, for example one per student or one per pair.
- Whether a teacher set such as the Molecular Model Set – College, Organic, Stereochemistry, Teacher is needed for demonstrations.
- The delivery city or country for the quotation.
