Product Name :

Silicone Oil

Product Code :

SLE/CH/174

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Silicone Oil (Product Code: SLE/CH/174) is a 50ml quantity of silicone oil intended for the Microscience Combostill, the small-scale unit used in microscale chemistry practicals. Schools and colleges that run Microscience equipment keep it on hand so the Combostill can be prepared and topped up as described in its instructions. As a chemistry consumables supplier in India, **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, supplies it alongside other Microscience items.

Key Details

Parameter	Detail
Type	Silicone oil (laboratory consumable)
Quantity	50ml
For use with	Microscience Combostill
Suitable for	Schools, colleges and training labs running Microscience practicals

Typical Use

Silicone oils are valued in laboratories because they stay stable when warmed, repel water anddo not react with most chemicals, which makes them a common choice where a clean, inert fluidis needed around small apparatus. In a microscale programme the Combostill is used repeatedly across many classes, so a separate supply of oil avoids interruptions when the original quantity runs low or becomes contaminated.

Always follow the Combostill instructions for where the oil goes and how much to use. Dispense it with a clean dropper or pipette, keep the container closed between uses so dust and moisture stay out, and replace oil that has become cloudy or discoloured. Silicone oil makes benches and floors slippery, so wipe any drips straight away. Laboratory coordinators who stock spares from one lab consumables supplier in India often order the oil together with replacement tubing for the same Microscience kits.

Supplier

This consumable is supplied by Jain Scientific Equipments Private Limited, which operates under the ScienceLab name from Ambala, Haryana, and supports schools with both apparatus and the spares that keep it running. For vendor registration, the company's GSTIN is 06AAECJ8618A1ZT and its Legal Entity Identifier is 3358004HRD1JIVXKYX49. More about us is on the company profile page.

Related Chemistry Lab Equipment

Other items from the Microscience range that are commonly ordered with this oil:

- Silicone Tube — a U-bend tube listed for use with the Microscience system.
- Combplate, Microscience — a core piece of Microscience apparatus for student
