Product Name :

Water Bath Kit for Hotplates

Product Code :

SLE/WB/06

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Water Bath Kit for Hotplates (Product Code: SLE/WB/06) is a spare water bath kit for the Nanoheat hotplate, used to turn that hotplate into a water bath for gentle, even heating ofsamples in teaching and research laboratories. It suits labs that already own a Nanoheat hotplateand need a replacement or additional bath, as the hotplate itself is not supplied with this kit. It issupplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Key Details

Parameter	Detail
Item	Spare water bath kit
For use with	Nanoheat hotplate
Hotplate	Not supplied with this kit
Product image	Representative of the range
Product code	SLE/WB/06
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Water Bath Kit for Hotplates Used For?

A hotplate on its own heats whatever sits on it from the bottom, which can scorch or crack a vessel and gives uneven temperatures. Adding a water bath between the hotplate and the samples spreads the heat through the water, so tubes, flasks and small beakers warm evenly and cannot rise above the temperature of the bath. That is useful for warming reagents, melting low-melting solids, thawing samples or keeping tubes at a steady temperature during a practical.

This kit is listed as a spare for the Nanoheat hotplate, so it is mainly a replacement or an extra bath for laboratories already using that hotplate, and a practical addition to hot plate lab set-ups in India. Always fill the bath with water before switching the hotplate on, and check the water temperature with a thermometer rather than relying on the hotplate dial alone.

What to Specify When Ordering

- The model of Nanoheat hotplate you use, so the kit can be matched to it.
- The number of spare kits needed.
- Whether you also need a thermometer for checking the bath temperature.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, supplies the Water Bath Kit for Hotplates from Ambala, Haryana, India. Because the product image is representative of the range, contact us before ordering and we will confirm the exact kit contents and its match to your hotplate.
