Product Name :

Human Birth Demonstration Model

Product Code :

SLE/BL/41

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Human Birth Demonstration Model (Product Code: SLE/BL/41) is a life-size PVC female pelvis with a miniature skull, used to show how a baby's head passes through the birth canal in midwifery, nursing and obstetrics teaching. Tutors guide the skull through the pelvic inlet, cavity and outlet so students watch the mechanism of labour instead of reading it from a diagram. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of biology teaching aids, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Childbirth (birth canal) demonstration model
Components	Female pelvis with miniature skull
Size	Life size
Material	PVC plastic
Product code	SLE/BL/41
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Birth Demonstration Model Used For?

A typical session starts with the skull held above the pelvic brim. The tutor then moves it down through the pelvis, showing how the head enters the inlet, turns within the cavity and emerges through the outlet beneath the pubic arch. Students repeat the movements themselves, which helps them remember the sequence before clinical placements and practical examinations.

The model is equally useful for explaining why the size and shape of the female pelvis matter in pregnancy, and for antenatal classes where expectant parents want to understand what happens during delivery. In senior school biology it brings the chapter on human reproduction to life. After each session, wipe both parts with a damp cloth and store the skull with the pelvis so it is not misplaced.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597), the OEM that makes both the pelvis and the miniature skull of this model at its licensed factory at 449, HSIIDC Industrial Area, Saha, Ambala (Factory Licence AMB-ONLINE-CHD-J-414). Nursing schools, medical colleges, dealers and importers in India and international markets buy it factory-direct rather than through a trader. A lost skull or a repeat order is handled by the manufacturer itself — just ask us. See the company profile for more.
