Description :

Autoclave Bag (Product Code: SLE/CH/187) is the large-format, 610 x 810 mm version of ScienceLab's high temperature waste bag, intended for departments that collect contaminated material from several benches and sterilise it in one load. The bag is made from heavy gauge polypropylene, is autoclavable up to 132 °C (270 °F), and is printed with blue biohazardmarkings. It suits colleges, hospitals' teaching labs and research groups that run a laboratoryautoclave sterilizer in India every day, and it is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Dimensions	610 x 810 mm
Material	Heavy gauge polypropylene
Temperature rating	Autoclavable up to 132 °C (270 °F)
Markings	Blue biohazard markings
Labelling	White panel for writing notes directly on the bag
Use	Disposable
Pack	Pack of 200

Typical Use

Where waste from a whole practical session or a research group is gathered in one place, a 610 x 810 mm bag lines a larger collection bin at the end of the room. Once the day's culture plates, pipette tips and contaminated paper towels are in, a technician records the source and date on the white panel, marks the bag with indicator tape and carries it to the autoclave in a secondary tray. Treating one large bag per cycle instead of several small ones keeps sterilisation records simple and makes the autoclave part of a clear waste disposal lab routine.

Before buying, check that a filled bag will fit the chamber of your autoclave with room for steam to circulate. Fill to about two-thirds, avoid pressing air out tightly, and let the load cool fully before the bag is moved to general disposal. Keep sharps in rigid containers rather than in the bag.

Manufacturer

Jain Scientific Equipments Private Limited, which operates under the ScienceLab name from Ambala, Haryana, manufactures this bag as part of the consumables it provides with its laboratory apparatus. For purchase departments that need vendor registration details, the company's GSTIN is 06AAECJ8618A1ZT and its Legal Entity Identifier (LEI) is 3358004HRD1JIVXKYX49. Further background is on the company profile.
