Product Name :

Burette Clamp, Die Cast – Single Clamp

Product Code :

SLE/GBu/12

Image not found or type unknown

Description :

Burette Clamp, Die Cast – Single Clamp (Product Code: SLE/GBu/12) is a die-cast retort clamp with a built-in boss head and a single burette clamp, used to hold one burette upright on a stand rod during titration. Spring-loaded jaws with rubber grips close on the burette quickly and hold it steadily, and the metal surfaces have a high-quality finish. It is supplied as a pack of 10 and manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of the chemistry lab equipment it makes in India for schools, colleges and overseas buyers.

Specifications

Parameter	Detail
Construction	Die-cast retort clamp
Type	Single (holds one burette)
Boss head	Built in
Jaws	Spring loaded, with rubber grips, for quick and stable clamping
Finish	High-quality finish to metal surfaces
Supplied as	Pack of 10

Typical Use

Slide the built-in boss head onto the rod of a retort stand and tighten it at a height that leaves the burette jet just inside the neck of the titration flask. Press the spring-loaded jaws open, place the burette between them and release; the rubber grips close around the glass so it stays upright without over-tightening. Because the boss head is part of the casting, there is no separate boss to lose, and the burette can be taken out and replaced in seconds when students refill or change solutions.

Check by eye that the burette hangs vertically before taking readings, and wipe the rubber grips clean if reagent is spilled on them. Supplied in packs of 10, the clamp is convenient for school lab equipment bulk supply, letting a department equip a full row of titration benches with matching fittings.

Manufacturer

The clamp is manufactured by **Jain Scientific Equipments Private Limited**, trading as **ScienceLab**, in Ambala, Haryana, India. The company was incorporated under CIN U29309HR2020PTC087597 and carries out production at its licensed factory in the HSIIDC Industrial Area at Saha, Ambala (Factory Licence AMB-ONLINE-CHD-J-414).
