Description :

Mass Set, Brass, 250g (Product Code: SLE/LB/32) is a small form slotted brass set used to set precise loads from 50g to 250g in 5g steps for string-tension, moment and friction experiments in physics labs. A 50g hanger carries nine 20g, one 10g and two 5g slotted masses, so teachers can dial in an exact tension rather than a round number. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Small form slotted mass and hanger set
Material	Brass
Total mass	250g
Hanger	1 x 50g (included)
Slotted masses	9 x 20g, 1 x 10g, 2 x 5g
Product code	SLE/LB/32
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 250g Brass Mass Set Used For?

Teachers reach for this set when the answer depends on small differences in load. It can tension a string over a pulley in standing-wave and string-vibration practicals, where a few grams change the pattern; it fine-tunes the balance point in moment experiments; and it helps pupils find the exact load at which a block just starts to slide in simple friction investigations. The 20g pieces give the main steps, while the 10g and 5g masses fill the gaps between them.

Plan the load before you start: begin with the 50g hanger, add 20g pieces for the bulk of the load, then top up with the 10g and 5g masses. Keep the small pieces in a dish during the practical so they are not knocked off the bench, and wipe the brass dry before returning this piece of mechanics lab equipment to storage.

OEM Manufacturer

Jain Scientific Equipments Private Limited, which customers know as ScienceLab, is the OEM (original equipment manufacturer) of the Mass Set, Brass, 250g and makes it at its own licensed factory at Saha, Ambala, Haryana, India. Institutional buyers completing vendor registration can use the company's GSTIN 06AAECJ8618A1ZT and Legal Entity Identifier 3358004HRD1JIVXKYX49. Because the set is supplied factory-direct, schools, colleges, dealers and importers deal with the maker itself for quotations and repeat orders. Read our [company profile](#) for more.
