Description :

Pipette Filler – 10ml (Product Code: SLE/P/42) is a thumb-wheel pipetting device used to draw up and dispense liquids safely with pipettes in chemistry, biology and teaching laboratories.Rated at 10 ml capacity, it lets students fill precisely with the wheel or empty the pipette almostinstantly with the push-in releaser, instead of pipetting by mouth. This item of school chemistrylab equipment is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Capacity	10 ml
Filling and dispensing	Thumb wheel rotates to draw up or dispense liquid precisely
Quick emptying	Push-in releaser for virtually instant emptying
Pipette holder	Moulded chuck with a silicone rubber collar inside; holds pipettesof standard sizes
Chemical resistance	Resists acids and alkalis
Cleaning	Easily disassembled for thorough cleaning
Product code	SLE/P/42
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a 10 ml Pipette Filler Used For?

The filler fits on top of a graduated or bulb pipette so that liquid is drawn up by the device and never by mouth. It is used in titrations, standard-solution preparation, reagent transfer and serial dilutions in school and college practicals.

Hold the pipette near its top and push it gently into the chuck, turn the thumb wheel to draw liquid just above the mark, then roll back to set the meniscus and deliver. Keep liquid inside the pipette and out of the filler; after work with acids or alkalis, take the filler apart, rinse the parts and let them dry before reassembly.

What to Specify When Ordering

- The number of fillers needed for your benches or student groups.
- The pipette sizes you use, so the chuck fit can be checked.
- Whether a larger-capacity filler or a bulb-type filler is also needed for other pipettes.
- The delivery location in India or abroad.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, which supplies this pipette filler from Ambala, Haryana, India to schools, colleges, laboratories, dealers and importers. It can be quoted together with the larger thumb-wheel filler, bulb-type fillers and pipette stand
