Description :

Pipette, 15ml (Product Code: SLE/CL/86) is a bulb-form glass pipette that delivers one fixed volume of 15 ml, marked by a single graduation line on its upper stem. Made from neutral glass that is heat and chemical resistant, and produced to Class B tolerance, it is intended formeasured transfers in volumetric analysis, sample preparation and routine clinical or chemistrylab work. Schools, colleges and quality-control labs buying chemistry lab glassware in India use itwherever the same aliquot must be repeated. It is made by a scientific instruments manufacturerin India, **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Type	Bulb form pipette
Capacity	15 ml
Graduation	Single graduation mark on the upper stem
Tolerance class	Class B
Material	Neutral glass
Resistance	Heat resistant and chemical resistant

Typical Use

A one-mark bulb pipette is the tool for moving an exact aliquot of a solution from a volumetric flask into a conical flask before a titration, for dispensing a fixed volume of reagent into a series of test samples, or for preparing dilutions where every replicate must receive the same amount. Because it has only one mark, there is no scale to misread, which suits students learning volumetric analysis and technicians running repeated determinations. It is a common item in a school or college titration kit in India alongside burettes and flasks.

Always fill the pipette with a pipette filler rather than by mouth. Rinse it first with a little of the solution to be measured, draw the liquid above the mark, then let it fall until the bottom of the meniscus sits on the line at eye level. Allow the contents to drain freely with the tip touching the inside of the receiving vessel, and follow the delivery marking on the pipette regarding the final drop. Rinse with distilled water after use and store it in a pipette stand so the tip is protected.

Manufacturer

This pipette is produced under the ScienceLab name by Jain Scientific Equipments Private Limited of Ambala, Haryana, a registered MSME (Udyam UDYAM-HR-01-0003714) that manufactures laboratory glassware and teaching apparatus. Export consignments are shipped under Importer-Exporter Code AAECJ8618A issued by the DGFT. The company background is on our company profile.
