Product Name :

Soda Glass Tubing 6mm

Product Code :

SLE/MC/05

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Soda Glass Tubing 6mm (Product Code: SLE/MC/05) is clear soda glass tube used to make delivery tubes, bends, jets and connectors for gas and liquid apparatus in school chemistry labs.It comes in 500mm lengths and is listed as heat and chemical resistant for general laboratoryuse. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a labglassware supplier in India for schools and colleges.

Specifications

Parameter	Detail
Material	Soda glass
Colour	Clear
Size (as named)	6mm
Length	500mm
Properties	Heat resistant and chemical resistant
Product code	SLE/MC/05
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Soda Glass Tubing Used For?

Soda glass tubing is the raw material for the glass parts of many school experiments: right-angle bends and delivery tubes for gas preparation, short connectors pushed through a rubber stopper, fine jets for fountain and wash-bottle set-ups, and simple manometers. Soda glass softens at a lower temperature than borosilicate, so students can bend and draw it in an ordinary Bunsen or spirit-lamp flame, which is why it is the usual choice for glass-working practicals.

Cut the tube by scoring it once with a glass tubing cutter and snapping it away from you with the hands protected by a cloth. Fire-polish every cut end, let hot glass cool on a heat-proof mat, and wet the tube with water or glycerol before easing it into a rubber stopper, a common cause of hand injuries if forced. For apparatus that will be heated strongly, use borosilicate tubing instead.

What to Specify When Ordering

- The outside diameter and bore you need — this listing is named 6mm, so please confirm the dimensions with us before ordering.
- The number of 500mm lengths required.
- Accessories such as a tubing cutter and rubber stoppers.

Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab, supplies Soda Glass Tubing 6mm from Ambala, Haryana, as a consumable for chemistry practicals and apparatus building. The company sources the tubing for schools, colleges, laboratory technicians, dealers and i .
