Product Name :

Spatula, Trulla

Product Code :

SLE/CH/225

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Spatula, Trulla (Product Code: SLE/CH/225) is a double-ended stainless steel spatula with a trowel-shaped scoop at each end, designed for handling large quantities of material. It measures 175mm in length with 15mm wide scoops, and its silver stainless steel finish cleans easily between uses. Where a narrow spatula would need many trips, the trowel scoops move granular solids, soil or powders from a stock container in a few passes, which makes it a practical addition to any educational lab equipment list for preparation rooms and practical benches. It is sold in packs of 10 and manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Type	Trulla, double ended
Material	Stainless steel
Colour	Silver
Scoops	Trowel-shaped, at both ends
Length	175mm
Width	15mm
Pack	Pack of 10

Typical Use

Lab assistants reach for a trulla when refilling student reagent jars from a bulk container, portioning out sand, marble chips or soil for a class, or loading a larger mass of solid onto a balance for a stock solution. In environmental and agriculture practicals, it serves as a small trowel for moving soil samples into sieves, beakers or sample bags, and in pharmacy and food labs it handles granules and bulk powders. When planning a new school lab setup, a pack for the preparation room saves time every week.

Use one end for dry solids and keep the other for a second material if you need to switch quickly, then clean both ends before the next job. Pour from the side of the trowel into a funnel for narrow-necked containers. Wash, rinse and dry the spatulas after use, especially after salts that can mark stainless steel if left on the surface.

Manufacturer

Jain Scientific Equipments Private Limited manufactures laboratory apparatus in Ambala, Haryana under the ScienceLab name. It is a registered MSME enterprise (Udyam UDYAM-HR-01-0003714), and export consignments are shipped under Importer-Exporter Code AAECJ8618A issued by the DGFT.
