Product Name :

Polypropylene Carboys

Product Code :

SLE/P/08

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Polypropylene Carboys (Product Code: SLE/P/08) are heavy-duty, autoclavable polypropylene containers with a stopcock, used to store and dispense distilled water, buffers and other bulk liquids in teaching, clinical and industrial laboratories. Lab managers choose them for their offset neck, carrying handles and leak-proof stopcock with a boss fitting, in 5, 10, 15 and 20 L capacities. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, for school lab equipment bulk supply and routine lab use.

Specifications

Parameter	Detail
Material	Heavy-duty polypropylene, autoclavable
Capacities	5 L, 10 L, 15 L and 20 L
Neck	Offset, for easy filling and pouring
Handles	Yes, for easy carrying
Stopcock	Leak-proof, heavy-duty, with boss fitting for extra strength
Graduations	Front-moulded, readable even when carboys stand in a row
Product code	SLE/P/08
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Polypropylene Carboys Used For?

A carboy with a stopcock turns a shelf into a dispensing station. Distilled or deionised water, saline, buffer and wash solutions can be drawn off into a beaker or wash bottle without lifting the container, which saves time and avoids spills. Because the carboys are autoclavable, microbiology labs also use them to prepare and hold sterile water or media in bulk.

The front-moulded graduations let staff check the level of every carboy at a glance when several stand side by side, and the offset neck makes refilling and pouring easier. Stand the carboy with the stopcock over the edge of a bench or shelf so a vessel fits underneath. Remember that a full 20 L carboy of water weighs about 20 kg, so use both handles, and loosen the cap before autoclaving so pressure can equalise.

What to Specify When Ordering

- The capacity you need: 5 L, 10 L, 15 L or 20 L.
- The number of carboys of each capacity.
- The liquid to be stored, so compatibility can be confirmed.
- Your delivery location in India or abroad.
