Product Name :

Dispensing Jug

Product Code :

SLE/P/09

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Dispensing Jug (Product Code: SLE/P/09) is a high-density polyethylene jug with a quarter-turn spigot, used to store and dispense water, wash solutions and other liquids at the bench or sink in teaching and routine laboratories. Staff find it easy to handle thanks to its rounded corners, sturdy handle and bottom grip, and it measures 25 × 25 × 38 cm. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, as practical lab equipment for colleges and schools in India.

Specifications

Parameter	Detail
Jug material	High-density polyethylene (HDPE)
Design	Rounded corners, sturdy handle, bottom grip for easier pouring
Jug dimensions	25 × 25 × 38 cm (9 4/5 × 9 4/5 × 15 in H)
Spigot	Thread-mounted, low-density polyethylene (LDPE), opens with a quarter turn
Spigot projection	Extends 108 mm (4 1/4 in) from the jug
Outlet tube	35 mm (1 2/5 in) long, 16 mm (3/5 in) diameter
Fill opening	Screw-capped, 52 mm (2 in) diameter
Side opening	Screw-capped, 26 mm (1 in) diameter
Product code	SLE/P/09
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Dispensing Jug Used For?

A dispensing jug sits on a shelf or bench edge and delivers liquid on demand, so nobody has to lift and tip a heavy container. Labs use it for distilled water beside the titration benches, soap or detergent solution at the wash-up sink, diluted disinfectant, and rinse water in field or mobile labs. A quarter turn of the spigot starts or stops the flow, and the short outlet tube directs the stream neatly into a beaker, bottle or wash bottle.

Fill it through the 52 mm screw-capped opening, using a funnel if the source is a carboy. Loosening a cap slightly lets air in and keeps the flow from the spigot steady. Place the jug so the spigot overhangs the bench edge, and use the bottom grip together with the handle whenever the full jug has to be poured or moved.

Supplier

The Dispensing Jug is supplied by Jain Scientific Equipments Private Limited, which trades as ScienceLab from Ambala, Haryana, as part of its Scientific Lab Plasticware range. Schools, colleges, hospital and industrial labs, dealers and importers in India and international markets can order
