Description :

Solar Bio Fuel Supplement (Product Code: SLE/PHY/206) is an extension box of accessories used to complete the Solar Bio Fuel Large biofuel experiment set with a stand, clamps, a Bunsen burner, an AV-Module and test leads. It suits schools and colleges that own or are buying BioFuel Large; no chemicals are included, and air shipments are sent without the Bunsen burner. Itis supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of school physics lab equipment in India.

Specifications

Parameter	Detail
Purpose	Extension box with accessories for Solar Bio Fuel Large
Stand parts	1 x stand base plate, 1 x stand rod 60cm, 1 x universal stand clamp, 2 x double clamp, 1 x chain clamp
Heat source	1 x Bunsen burner (not sent with air shipments)
Electrical	1 x AV-Module
Test leads	2 x black 25 cm, 2 x red 25 cm
Chemicals	Not included
Product code	SLE/PHY/206
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Solar Bio Fuel Supplement Used For?

A biofuel practical needs more than glassware: the flask, distilling head and condenser have to be clamped firmly over a heat source, and the electrical side of the experiment needs a measuring module and leads. This box supplies exactly those support items for Bio Fuel Large — a base plate and 60cm rod to build the stand, a universal clamp, two double clamps and a chain clamp to hold the glassware, a Bunsen burner for heating, and an AV-Module with red and black test leads for the electrical connections.

These lab equipment accessories turn the set into a complete bench station. If your order travels by air, the Bunsen burner will not be in the box, so plan a burner and gas connection locally. No chemicals are included either, so arrange the substances for your experiments before the first lesson.

What to Specify When Ordering

- The number of supplement boxes, matching your Solar Bio Fuel Large sets
- The shipping mode, since air shipments are sent without the Bunsen burner
- Any chemicals or a separate burner you want quoted, as neither is in an air-shipped box (ask us)
